

## Statewide Clinical Network for Older People Consumer Forum

Monday 20 September 2010

9:45am for a 10:00am start, finish 3:30pm

The Queen Elizabeth Hospital Research Foundation

50 Woodville Road, Woodville South

Join us for some important conversations about the care of older people in the public health sector

The forum will include a guided tour of the facilities developed specifically for older people at The Queen Elizabeth Hospital

HCA, in collaboration with SA Health and the Statewide Clinical Network for Older People, will host this forum to engage consumers and carers who have used the public hospital system in the past two years. The purpose of the Forum is to provide an update on current and new developments in geriatric care in SA and gather stories from consumers about their experiences in the public health system.

The expected outcomes of the forum are:

- > consumers and carers will have an increased understanding of new geriatric care services in SA;
- > HCA and SA Health will have received significant consumer input into the future of geriatric care services in SA;
- > consumer and carer experiences will influence the future needs and planning for geriatric care in SA;
- > a network of informed and interested consumers and carers will be developed to ensure future involvement of consumers and carers in the development of the Network plans;
- > a report of the forum will be presented to the Older Persons SWCN.

To register please complete the attached registration form and fax or email to:

Sheila Brown, HCA Consumer Engagement Officer
