ACS Legislation Update Service

- Aged and Community Services SA & NT (ACS) provides a legislation update service on a subscription basis for ACS members and non-members.
- ACS has identified more than 100 pieces of State and Commonwealth legislation with direct or indirect applicability to aged care.
- While it is not necessary for aged care providers to have every piece of relevant legislation immediately accessible, it is useful for providers to be aware of the legislation which may impact on their operations.

What you receive when you subscribe

- A copy of the Aged Care Act 1997 and Aged Care Principles (new subscriptions).
- A summary of all legislation relevant to aged care. Any amendments to the summary will be supplied free of charge when updates are made.
- When relevant legislation is amended by Parliament, ACS will send electronic updates of the legislation, along with a written analysis compiled by ACS of the major changes and potential impacts.
- Confirmation of subscription for Accreditation Purposes.
