**PROFESSIONAL DEVELOPMENT OPPORTUNITY
FOR HEALTH PROFESSIONALS**

Health Professional's Role in Advance Directives for People with Dementia

Thursday, 16 October 2008

Session 1: 'The Window of Opportunity' – 9.30am to 12.30pm

Session 2: 'Putting it into Practice - the Role of Health Professionals' – 1.30pm to 4.30pm

(Note: Session 1 is a prerequisite for Session 2. Places for Session 2 are capped at 40.)

What is the role of health professionals in understanding advance care planning for people with dementia?

Decision making in advance and putting enduring powers in place are important for everyone, but particularly for people who are diagnosed with memory loss. Understanding the law and practice associated with advance directives, advance care planning and the role of the Guardianship Board is an essential part of the role of health professionals. Many health professionals are not well informed and may be unable to assist clients with advance planning.

ELIGIBILITY

Health professionals qualified and/or seeking to be qualified at a tertiary level including doctors, nurses, occupational and diversional therapists, physiotherapists, psychologists, social workers, speech pathologists, and students.

PRIMARY SPEAKER

Margaret Brown is a Research Fellow with the Hawke Research Institute, University of South Australia and a consultant in advance care planning. Her research over many years has focused on advance directives, advance care planning and decision making at the end of life. She is the Deputy Chair of the South Australian Advance Directive Review Committee and Deputy Chair of the Reference Group for the Respecting Patient Choices Project at the Queen Elizabeth Hospital. She is also a member of the Guardianship Board of South Australia.

GUEST SPEAKER

Ian Bidmeade is a lawyer with considerable experience in dealing with wills, powers of attorney and guardianship, particularly when mental capacity issues arise. He was the first President of the Guardianship Board, and recently reviewed SA's mental health laws for the State Government.

VENUE

Seminar Room, Alzheimer's Australia SA Inc, 27 Conyngham St Glenside, Ph. (08) 8372 2100. On-site parking.

LEARNING OBJECTIVES

By the end of Seminar 1 "Window of Opportunity" the learner will be able to:

1. Understand the ethical and legal principles which underpin advance directives in South Australia.
2. Identify the issues and barriers that inhibit people from completing the documents before the loss of capacity.
3. The role of Guardianship Board.

By the end of Seminar 2 "Putting it into Practice" - the learner will be able to:

1. Identify the different legal and policy documents in South Australia.
2. Understand the process of completing the documents, including access to legal information and witnessing.
3. Discuss the complexities and issues for families when a person loses decision making capacity.

Training to care for people with dementia

The South Australia & Northern Territory Dementia Training Study Centre (SA & NT DTSC) is one of four centres funded, as part of the Australian Government's Dementia Training Study Centres for Health Professionals Project, to develop the dementia skills of existing and future health care professionals.

As the lead organisation in the establishment of the Centre, Alzheimer's Australia SA Inc is proud to be working in partnership with Aged and Community Services SA & NT Inc, Batchelor Institute of Indigenous Tertiary Education, Charles Darwin University, ECH Inc, Flinders University, Masonic Homes Inc, South Australian Government: Department of Health, Southern Adelaide Health Service: Flinders Medical Centre, The University of Adelaide, and University of South Australia.
