

The Audaire Report

Do you want a comprehensive overview of the aged care sector in one easy to read document?

Introducing the essential reference document for board members, executives and managers working in the residential and community care sector.

The Audaire Report provides a comprehensive overview of the aged and community care sectors, giving busy professionals the information they need to understand key and current issues.

Use it for people new to your team or provide it to your decision makers to refresh and update their knowledge.

With over 40 references and written for people working in the aged and community care industry, The Audaire Report will stimulate strategic thinking and provide a context for future planning. The Report is essential reading for Board Members, Executives and Managers as:

- An introduction to working in the industry
- Background material when preparing for planning and
- An overview that will improve understanding of the external environment as it is today

The Report covers current, emerging and planning issues that relate to external drivers of change including the demographics of the aged population, government policy and the social and economic environment.

Sold on an annual subscription basis, The Audaire Report is updated in June and November each year. Subscribers are entitled to updates that are released during their subscription period plus a unique licence that allows subscribers to copy and distribute the report for their internal use only (All other rights are reserved).

Get this easy to read report delivered to your inbox for an annual subscription of \$200 (GST not included).
